Panasonic Oxyride™ Extreme Power™ Batteries

The first-of-its-kind "AA" and "AAA" size power cells, Oxyride™ Extreme Power™ batteries are specifically designed for the digital era. Featuring the most significant developments in primary battery technology in 40 years since the introduction of alkaline, Oxyride™ Extreme Power™ batteries are more powerful and longer lasting than alkaline. They provide users with a high-powered, long-lasting energy source that is ideal for powering digital devices such as digital cameras, hand held games and portable audio products.

Energizer® Rechargeable Batteries and Chargers

Energizer® Rechargeable™ NiMH round cell batteries' leading-edge technology makes them ideal for the most advanced, high-drain devices such as digital cameras, personal digital assistants (PDAs), hand-held games, portable CD players and palmtop computers. High-capacity cells provide exceptional power per charge and up to 1,000 recharges. And since they're renewable and reusable, Energizer® Rechargeable™ batteries are a good economic and environmental choice.

Rechargeable Nickel-Metal Hydride Batteries

Nickel-Metal Hydride (Ni-MH) rechargeable batteries are one of the most advanced rechargeable battery systems commercially available and offer several advantages over today's ordinary nickel-cadmium (Ni-Cd) rechargeable batteries, including up to 40 percent longer service life. Ni-MH rechargeable batteries are also an environmentally friendlier alternative to Ni-Cd batteries.

Order #	Description	mAh	List Price	(1-49)	(50-up)
29-4185	"AA" Single	1800	$4.99	$1.39	$1.23
29-4190	"AAA" Single	600	4.99	1.39	1.23

CSB PRISM Power Wheel Type Battery

For use in many popular motorized children's toys including power wheels. In-line fuse replaces original battery's fuse on the battery. Each battery is 6V, 12A hour. Most applications require two batteries. Connectors interlock for two battery applications. **Dimensions:** 2.75" (W) x 4.25" (L) x 5.54" (H). Weight: 5.90 lbs. Mfr. #GH130WLF.

Order #	(ea.)
29-1950	$19.95

Intelligent Battery Charger

This charger with a built-in microprocessor has features not found in average chargers. This charger monitors changes in voltage and current to provide the strongest charge. Automatic discharge and deep conditioning eliminate memory effects that are problems in all NiCd batteries. The charger starts the cycle in pulse mode and switches to trickle charge when the battery is charged. Automatic detection of battery voltage: 4.8, 6.0 or 7.2V. The charger operates on 12VDC.

Order #	Description	(ea.)
29-3330	12VDC	$17.72

"AA" Battery Adaptors

"AA" battery adaptors allow you to use a size "AA" battery in place of a size "C" or "D". Allows you to save money by buying value pack sizes of "AA" and eliminates the need to purchase multiple sizes of batteries. Four per package.

Order #	Size	(pkg.)
29-2630	"C"	$1.99
29-2635	"D"	1.99

Ni-Cad Pulse Chargers

Battery memory greatly reduces the useful life of Ni-Cad batteries. A pulse charger breaks battery memory by sending DC pulses into the battery. Fast charges batteries up to 95% of capacity and automatically switches to trickle charge. Batteries are automatically discharged before charging. Charges "AAA", "AA" Ni-Cad and Ni-MH.

Order #	(ea.)
29-1685	$19.52

Deluxe Universal Ni-Cad Battery Charger/Tester

•Accepts "D", "C", "AA", "AAA", "N" and 9V Ni-Cad batteries or button cells •Charges batteries individually or simultaneously (up to ten cells) •"Test meter" indicates strength of battery •Test batteries for strength or weakness •110/220VAC input

Order #	(ea.)
28-1415	$13.91

Battery Charger with Manual Discharge

For combinations of one to four "AA", "AAA", "C", "D" with charge current of 120mA or one to two 9V with charge current of 13mA. Built in battery tester to check condition of the battery.

Order #	(ea.)
29-3300	$7.20

Energizer® Battery Holders

•Commonly used in radios and other portable electronics •Ideal for electronic projects

YUASA NP Series - General Purpose Float and CyclicSealed Lead-Acid Batteries

Yuasa Inc., a leader in back-up energy, offers a complete line of rechargeable batteries for a wide variety of applications. Use as a supply of back-up energy, or as a portable power source. The NP series can be stored, charged, or operated in any position without leakage. Qualified to non-spillable UN2800 standards. Standard housing is ABS resin. A flame-retardant version (to UL94-VO) is also available.

Panasonic ideas for life Cordless Telephone Batteries

Genuine Panasonic replacement batteries are ideal for all Panasonic cordless telephones, and work seamlessly with countless other cordless telephones, regardless of the manufacturer. All batteries are packaged with easy-to-understand graphics that clearly delineate battery type and capacity. Review the battery cross reference chart to easily find your battery. Don't see the battery you need? MCM has access to Panasonic's full line of replacement batteries. Chemical consistency: Ni-MH.

DANTONA INDUSTRIES, INC. Cordless Telephone Batteries.

Battery failure is the most common cause of cordless telephone problems. Replacing the battery helps reduce or eliminate static, cross talk and reduced range. Dantona offers the broadest range of replacement cordless telephone batteries for today's popular phones.

28-10660	DC/DC	44.99	39.99

MCM Universal, Digital Camera, AC Power Adaptor

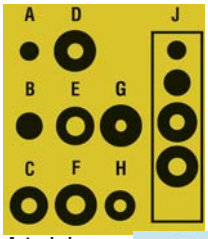
•For use with many digital cameras **Features:** •Foldable plug for easy storage •Tips for most devices **Power ratings:** •Input: 100~240VAC, 60Hz/50Hz •Output: 3.3V~8.4V DC, selectable up to 2500mA •Includes six interchangeable tips

Order #	(1-9)	(10-up)
28-10650	$15.95	$14.55

Replacement Digital Camera AC Power Adaptor

•For use with many digital cameras •Input: 120VAC, 60Hz •Output: 3VDC at 22500mA •Tip size: Length .95mm, circumference: 3.5 x 1.35mm

Order #	(1-9)	(10-up)
29-4135	$9.95	$8.55



Actual size

Universal AC/DC Adaptors

MCM's unique line of AC/DC adaptors allow the user to select the best adaptor and plug to suit the application. All adaptors are UL listed. Input voltage 120VAC. Cord length 6'. Polarity can easily be changed by reversing the plug. Select the voltage and current rating for the adaptor and select the appropriate plug for your application.

Super Nintendo Type AC/DC Adaptor

•Replacement power adaptor for Super Nintendo game system •Input: 120VAC, 60Hz •Output: 10VDC at 850mA •6' line cord

Order #	(1-9)	(10-up)
28-2095	$6.79	$6.46

Sega Genesis Type AC/DC Adaptor

For use with Sega Genesis video game systems. Replaces Sega #1602-1 "older" style Genesis (I) system, identified by volume control. Input voltage 120VAC, 60Hz. Output voltage 10VDC, 850mA.

Order #	(1-9)	(10-up)
28-1995	$6.47	$5.80

Nintendo Type AC Adaptor

Replacement power adaptor for Nintendo game system. Replaces Nintendo #NES002. Works for system NES001 and NES001. Input voltage 120VAC, 60Hz. Output voltage 9VAC, 1300mA. 6' line cord.

Order #	(1-9)	(10-up)
28-2090	$6.49	$5.87

Sega Genesis II Type AC/DC Adaptor

Used to replace adaptor for Genesis II original adaptor #MK2103. Output voltage 10VDC, 850mA, positive tip.

Order #	(1-9)	(10-up)
28-3120	$6.26	$5.70

SONY AC Power Adaptor

Sony's Worldwide AC Power Adaptors feature a rated input of 100~240VAC, 50/60Hz and a maximum output current of 1000mA DC. Its slim, lightweight design makes it ideal for traveling abroad and for home use. It is more compact than conventional AC power adaptors, and the AC plug's blade is foldable into the body of the adaptor for convenient storage. Features low waiting-power consumption and large current capacity.

Order #	Output VDC	(1-3)	(4-up)
AC-E45A	4.5V	$19.00	$18.03
AC-E60A	6.0V	19.00	17.50
AC-E90A	9.0V	19.00	18.03

NEW! NEW! NEW!

Ultra Compact AC Adaptors

UL and CSA listed AC to DC switching power supply suitable for security cameras and other portable electronic devices. Light weight, compact and efficient switch mode design incorporates highly regulated output within ± 0.25V of rated output, even with no load. Input: 100V~240V 50~60Hz. Output: 12VDC. 5' output cord with 5.5mm x 2.1mm center positive coaxial DC power plug.

INTERMATIC® Timers

Now you can automatically control your lamps and appliances even when you're out. This heavy-duty switch plugs directly into any wall outlet. You can program one on/off setting per day.

Order #	(ea.)
28-2870	$7.57

INTERMATIC®

Digi-Set

With this easy-to-set hand held programmable timer you can program up to four on/off settings per day. This heavy-duty grounded timer controls all types of loads such as TVs, stereos and appliances. **Features include:** Random setting, LCD digital clock and readout and to-the-minute setting accuracy.

Order #	(ea.)
28-2885	$29.80

Foreign Travel Adaptor Kit

•This travel kit combines the correct adaptor plug with the convertor so that 110/120V appliances (50~1600W) can operate overseas •Comes complete with five adaptors, one convertor and deluxe case **Note:** For electrical devices only, not for electronic devices.

Order #	(kit)
28-1425	$15.81

US to Foreign Travel Convertor

•Converts standard electricity (110/120V) to foreign electricity (220/240V) •60/50 cycle •For appliances less than 50W

Order #	Description	(ea.)
28-1435	120V to 240V	$5.43
28-1430	240V to 120V	5.43

Foreign Travel Adaptors

•Allows for use of electric appliances in foreign countries •#28-1960 can be used with the Foreign to US Travel Convertor (#28-1430) •#28-1940 for use with US to Foreign Travel Convertor (#28-1435)

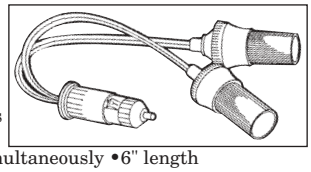
Cigarette Lighter "Y"



•Fused lighter plug with 5A fuse to two lighter jacks •Allows use of two 12VDC devices simultaneously •6" length

Order #	(1-9)	(10-up)
23-165	$4.83	$4.44

Sharp Type Camcorder Power Cord

•Popular replacement power cord used on Sharp camcorders •Replaces Sharp #QCNW-1175TAXX. •6' (L) •Molded right angle barrel plugs •4.0mm x 1.7mm

Order #	(ea.)	(2-4)	(5-up)
32-7475	$4.17	$3.65	$3.12

maxell Dual Auto Power Adaptor

•Converts one DC outlet to two •Adjustable position plug •Includes 3A replaceable fuse

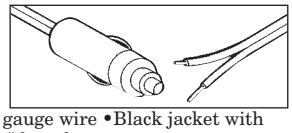
Order #	(1-9)	(10-up)
80-6390	$6.99	$4.89

maxell Automobile Accessories

CD to Cassette Adaptor: •Allows you to play CDs through cassette system •Guaranteed to work in all cassette systems

Order #	Description	(1-9)	(10-up)
80-6400	Auto kit includes lighter power plug and CD to cassette adaptor	$24.99	$17.49
80-6405	CD to cassette adaptor	14.99	10.49

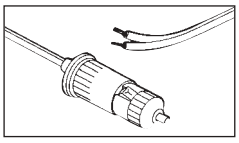
12 Volt Power Cord



•Comes complete with lighter plug •22 gauge wire •Black jacket with polarity markings •7½" length

Order #	(1-9)	(10-up)
27-112	$1.01	$0.94

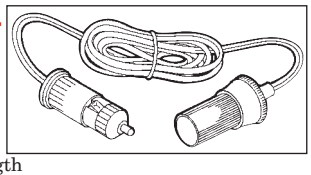
12 Volt Fused Power Cord



•Comes complete with 5A fused lighter plug to stripped and tinned 18 gauge wire •Black jacket with polarity markings •12' length

Order #	(1-9)	(10-up)
23-240	$4.39	$4.27

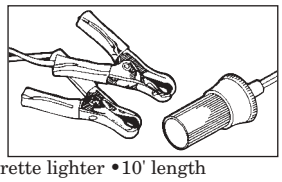
Cigarette Lighter Extension Cord



•Fused lighter plug with 3A fuse to lighter jack •18 gauge •2 conductor •12' length

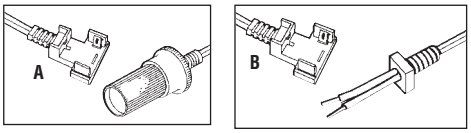
Order #	(1-9)	(10-up)
23-160	$4.31	$3.81

DC Power Jack



•Lighter jack to two battery clips •Allows hook-up of DC powered accessories with a lighter plug to vehicles without a cigarette lighter •10' length

Order #	(1-9)	(10-up)
23-170	$2.99	$2.53



Battery Clips

Battery clips for use with Panasonic type chargers and batteries. Works with BP50 and BP 88 batteries.

Fig. Order #	Description	(1-9)	(10-up)
A 28-3125	Cigarette socket to battery clip	$2.08	$1.56
B 28-3135	Clip to bare leads w/strain relief	1.53	1.22

MCM GOLDLINE® Four Outlet Cigarette Lighter Adaptor

•Convert your DC outlet to four outlets •Includes 10A fuse •Cord length 8' •Available with 12VDC plug or tinned leads for permanent installation

Fig.	Order #	Description	(1-9)	(10-up)
A	28-10570	12V DC plug	$6.95	$5.61
B	28-10575	Tinned leads	6.95	5.61

Car Battery Saver

Don't return to find your car has a dead battery. This battery saver connects in-line with any appliance that draws power from the car battery. If the voltage drops below 11.2VDC, the appliance power is cut off. Power is then restored when the battery's voltage reaches 12.5VDC. Maximum current 10A.

Order #	(ea.)
29-3345	$9.26

DC/DC Switching Power Adaptor

Regulated DC/DC adaptor for most applications. Comes complete with the six most popular plugs that can be stored in the internal storage compartment. Input voltage: 12~24VDC. Output voltage: 1.5, 3.0, 4.5, 6.0, 7.5, 9.0 or 12VDC.

Order #	(ea.)
29-3340	$9.17

12 Volt Universal Coiled Power Cord

•Perfect for mini TVs, radar detectors and other equipment requiring 12VDC up to 2A •Fused protected coiled power cord •Comes complete with six popular interchangeable tips: 3.5mm, 3.5mm x 1.2mm, 5.0mm x 2.1mm, 5.5mm x 1.5mm, 5.5mm x 2.1mm and 5.0mm x 2.5mm •Plugs into cigarette lighter •6' cord

Order #	(ea.)
28-1395	$6.47

DC Replacement Power Cords

Save money by repairing your damaged DC power cord. 5', 18AWG shielded wire, UL 1185.

Order#	Description	Plug Size	(ea.)
23-735	DC cord without ferrite	6.5mm x 2.5mm	$2.79
23-736	DC cord with ferrite	5.5mm x 2.5mm	4.29

TRIPP LITE THE POWER PEOPLE

Ultra-Compact PowerVerter DC to AC Inverters

•Convert 12VDC to 120VAC power wherever you need it •Permanent mount and portable power solutions •Advanced modified sine wave output ideal for powering anything from laptop computers to small appliances and tools •Packs reliable technology into a durable lightweight aluminum housing •"HF" models provide a permanently mounted, convenient power center allowing you to outfit your RV or trailer with an entire kitchen or entertainment system •Multiple outlets and up to 1800W of available power means you can power several pieces of equipment at the same time **Specifications:** •12V input, 120V output

Order #	Mfr. #	Output/ Watts	AC Outlets	(1-9)	(10-up)

Multi Voltage Regulated Power Supply

•Ideal for any device drawing up to 2A •Fully regulated to deliver constant DC power •Rotary selector switch selects 3, 4½, 6, 7½, 9 and 12V •Power projects or small battery operated devices •Color coded binding posts makes connection easy

Order #	(1-9)	(10-up)
28-2200	$22.95	$20.55

sima

Automotive Power Inverter

The new, compact Sima Titanium series power inverters provide up to 2500W of AC power to give you the current to run anything from a cell phone charger to a small TV; including work lights, drills, vacuums, laptops, fax machines, soldering irons, and more. Designed for recreational and industrial use, they are ideal for use with consumer electronics such as TVs, PDAs or DVD players, also light construction and emergency power. Sima Titanium Plus Series power inverters are equipped with low battery alarms and shutdowns to protect your battery from complete discharge. Automatic thermal protection prevents overheating from overloads or inadequate ventilation. Two AC outlets are grounded and short circuit protected. The STP-1000 comes with 6' alligator clips and cables for temporary installation. **Features:** •Three year limited consumer warranty •Two short-circuit protected AC outlets •Mounting feet for easy installation in any vehicle •**Note:** #28-10185 will only work with 36W and 40W lamps

Woods®

Tough Strip Six Outlet Power Strip

An all steel casing makes this strip the durable choice for the workshop. 15 amp circuit breaker allows you to reset overloads at job site instead of running to your electrical panel. •4' 14/3 cord •Rated 15A, 125V, 1875W

Order #	(ea.)
28-4513	$12.95

Woods®

Transformer Deck Six Outlet Power Strip

Plugging a transformer into ordinary power strips means losing up to two outlets, but not with this unit. Two transformer ports provide a large, stable area for transformers and allow clear access to all outlets. •Plastic housing •4' 14/3 cord •15A circuit breaker •Rated 15A, 125V, 1875W

Order #	(ea.)
28-4512	$12.95

Woods®

Three Outlet Household Extension Cords

•16 gauge, two conductor wire •125V, 13A •Includes safety cover for unused outlet

Woods®

Yellow Jacket® Contractor Grade Cords

Woods' exclusive Yellow Jacket® compound is more flexible and abrasion resistant at any temperature than standard vinyl compounds or blue cold weather cords. Yellow Jacket® cords are the best on the job site, because they are three times as abrasion resistant as standard vinyl. PowerLite power indicator plug glows when the cord has power. Extra heavy, clear molded plugs are rugged and durable.

SmartPro UPS

The SmartPro family of intelligent, line-interactive UPS systems is specially designed to provide mission-critical network, telecom and server applications with a superior level of power protection and control. These long lasting battery back-ups support up to four servers during blackouts. Automatic voltage regulation constantly monitors incoming voltage and "trims" or "boosts" to supply consistent power without draining batteries. Powerful surge suppression safeguards against damage from spikes and line noise. Every model includes award-winning PowerAlert Software to acilitate graceful unattended shutdown and unparalleled network management and control, including wireless devices. Peace of mind comes in the form of $75,000 Ultimate Lifetime Insurance to cover connected equipment against surge damage…for life!

Isolation Transformers

Tripp Lite Isolator series isolation transformers offer complete line isolation, continuous noise filtering and enhanced common mode surge suppression. Internal low-impedance isolation transformer component with Faraday Shield offers 100% isolation from the input AC line. Removes EMI/RFI noise, utility switching transients, background spikes generated by other on-site loads and utility or lightning related surge conditions. Additional surge suppression components placed at both the line input and transformer output combined with full line isolation offers continuous line filtering of a full range of power line noise in all modes. Active transformer filtering with no wearable parts is uniquely able to reduce surges in the worst of power environments to harmless levels. Reduces 6000V IEEE587 Cat A&B ring wave and combination wave test surges to only 0.5V common mode. Two year manufacturers warranty. Model IS1000Hg includes hospital grade outlets.

BC Pro UPS

BC Series UPS System symbolizes the most cost-effective approach to safeguarding a single personal computer or workstation. Reliable battery back-up offers plenty of time to save open files and shut down equipment in the event of a blackout. BC Pro models include award-winning PowerAlert Software to facilitate graceful unattended shutdown in the event of a prolonged power failure. Peace of mind comes in the form of $25,000 Ultimate Lifetime Insurance to cover connected equipment against surge damage…for life! Mfr. #BC PRO 600

PowerVerter Plus Inverter

Harness your vehicle's battery to efficiently power office equipment on the road or power tools at a work site. Continuously supplies up to 500W of 120VAC power to two AC outlets from any 12V battery or automotive DC source. Frequency control locks AC output at 60Hz for operating stability of motor loads. Includes a set of high current DC input terminals for simple, permanent installation. Highly reliable large transformer design specializes in powering motors and other inductive loads with high-current start-up needs. **Features:** •Allows users to run large, motorized AC appliances from any 12V battery or automotive DC system •Converts 12VDC battery power to 120VAC power •Up to 2000W continuous output power •Up to 4,000W peak output power to start-up heavy motorized/inductive loads •Two outlets; DC input terminals for 12V battery connection (user supplies cable) •Frequency control for operating stability •Diagnostic LEDs indicate load level (high, medium, and low) and battery charge (high, medium, and low)

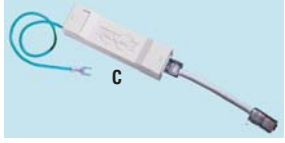
Network Surge Suppressors



C

Lightning, electrostatic discharges, ground surges and faulty wiring send surges along your network lines, causing glitches, lock-ups and hardware damage on your computer system. Tripp Lite Network Surge Suppressors end the threat of dataline surges. Installed directly at your data ports, they protect your computer's delicate internal circuitry with up to 300% more surge absorbing power than competitive models.

Back UPS RS

This high performance desktop battery back-up features maximum protection in a versatile design. The fully featured APC Back-UPS RS can be placed on the floor, under a monitor or on a shelf. Six battery back-up outlets with automatic voltage regulation (AVR) enable you to work through even the most frequent brownouts and power sags, keeping 90/110 minutes of battery power for when you need it most. For printers and other devices that do not store or process information, two additional outlets provide surge protection. Both ethernet 10/100BaseT and telephone dataline surge protection safeguards against surges entering via network connections. The PowerChute Personal Edition software features easy-to-use safe system shutdown with sophisticated power management **Features:** •Lightning and surge protection preventing damage to your equipment from power surges and spikes •Internet fax, modem, DSL surge protection provides protection from surges and spikes traveling on the phone line •Resettable circuit breaker •Easy recovery from overloads; no need to replace a fuse •Automatic voltage regulation (AVR) corrects under-voltages and over-voltages without draining the battery •Building wiring fault indicator immediately warns you of wiring problems like improper grounds that could cause shocks or prevent adequately suppressing surges •USB compatibility and connectivity ensures quick and easy installation of the free PowerChute Personal Edition Software •Eight recepticles

Trident® LED Headlamps

These lightweight headlamps (only 4.64 oz. and sized under 3") feature up to three way lighting for short, medium and long distances. A single green LED in the Trident Green lamp gives you excellent low level lighting. A 90° tilting head and spot to flood focus lets you zero in on the source you're illuminating. These lights also include a lifetime warranty and all use three "AAA" alkaline batteries, which are included. These light come in two different configurations: **61060:** Trident Green-Two white LEDs, one green LED and one Xenon bulb **61007:** Septor 7-Seven white LEDs

E-Z Check® Plus GFI Circuit Tester

The E-Z Check® plus GFI circuit tester checks for the following conditions: Correct wiring, open ground, reverse polarity, open hot, open neutral, hot on neutral, hot and ground reversed with open hot, and ground fault interruption. By depressing the black button on the unit, the E-Z Check intentionally overloads the actual GFI breaker to test its mechanical operation.
